

MISSOURI DEPARTMENT OF NATURAL RESOURCES  
WATER PROTECTION PROGRAM

SUMMARY OF COMMENTS RECEIVED ON USE ATTAINABILITY ANALYSIS

PREPARED FOR THE CLEAN WATER COMMISSION

FOR THE SEPTEMBER 7, 2005 MEETING

This document contains:

List 1: Waterbodies where at least one comment disputes the findings of the UAA.

List 2: Commenters submitting multiple comments

List 3: Comments that do not dispute UAA findings

List 4: General Comments

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/23/2005	James	Fairchild	Boone	Bear Creek	1015	Creek is over 3' deep in several locations including Bear Creek Trail Bridge on Hwy 763; several paths lead to deep holes; flows past low income housing projects	Y	
8/3/2005	Lawrence	Lile	Boone	Bear Creek	1015	He swam in this creek as a child and families still swim in the creek.	Y	
8/18/2005	Ken	Midkiff	Boone	Bear Creek	1015	Feels that UAAs submitted by Barr Eng. are flawed because they did not incorporate witness reports of use, and should not be used by the Rev. Comm.; Osage Grp. Sierra Club: Reports that the creek runs through a Columbia neighborhood and is part of the city's Greenbelt System. Reports City Councilman, Chris Janku and others have witnessed extensive " WBCR by children and adults."		
6/3/2005	Scott	Miniea	Boone	Bear Creek	1015	Has observed children and adults playing in the creek. Also, doesn't think the information we have out is in an understandable format.		
8/18/2005	Eleanor	Mitter	Boone	Bear Creek	1015	Pools in creek are swimmable and people fish in stream.		
8/19/2005	Priscilla	Stotts	Boone	Bear Creek	1015	Recommend for SCR because Stream Team site in that segment		
8/24/2005	Jessica	Suter	Boone	Bear Creek	1015	Swimming hole just ds from Bear Creek Trail bridge at eastern end of Big Bear Blvd. Has seen children swimming and wading there.	Y	
8/23/2005	Gene E.	Killian	St. Genevieve	Big Bottom Creek	1746	" pray that the streams be protected from any further pollution than they receive. We swim in the stream and we know that are well water is feed by the streams."		
8/23/2005	Dave	Sodam	St. Genevieve	Big Bottom Creek	1746	Protect the Big Bottom for fishing wading and baptisms. "I feel that because of greed (for profit) has no place when it comes to the environment. So please stop the abuse of our streams.		

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/23/2005	Kevin	Engler, Senator	Ste. Genevieve	Big Bottom Creek	1746	Senator Engler sent a letter regarding South Fork Isle du Bois and Big Bottom Creeks in Ste. Genevieve County. He stated that "constituents have contacted my office to express their concerns about exemptions from these streams." He has been told that "these streams are still used for swimming and other activities during which water could get into a person's eyes, ears or mouth." Senator Engler included copies of correspondence sent to his office regarding this stream. Those comments, sent by Darriel and Betty Coleman of Bloomsdale were submitted to the department separately and are being reviewed.	Y	
8/26/2005	John	Hoskins	St. Charles	Bigelow's Creek	1608	MDC staff observed children playing and splashing in the creek.		
7/23/2005	Bill	Byram	Lincoln	Birkhead Branch	34	Used for fire protection		
8/26/2005	John	Hoskins	Lincoln	Birkhead Branch	34	MDC staff saw children playing and splashing in the water.		
7/5/2005	Richard	Velugi	Lincoln	Birkhead Branch	34	DNR must put in place full WQ protections		
8/17/2005	Melody	Torrey	Putman	Blackbird Creek		Swim at bridge on 300th rd, Hwy 129, Hwy Y . in last 5 years. Streamteam 714	Y	
8/22/2005	James N.	Huckins	Cole	Bois Brule Creek	1042	He is a Sr. Research Chemist with USGS who states these streams should "not be downgraded to SCR because of potential health risks." Seen kids playing and swimming at Hwy D bridge. There's a pool approx. 3-ft deep just downstream from the bridge. He fishes this creek. It's listed in Chuck Tryon's book, "200 Missouri Smallmouth Adventures." States he and other wade fisherman often sit down in pools to cool off during fishing.	Y	

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
7/25/2005	Scott	Goodin	Cole	Bois Brule Creek	1002	Stated that he swam in the creek just beyond where the UAA was conducted 1 week after the UAA.	Y	
8/22/2005	James N.	Huckins	Cole	Bois Brule Creek	1042	Senior environmental research chemist with USGS, concerned fisherman; do not downgrade this creek to SCR; seen kids swimming at Hwy H bridge; ds of that bridge is pool about 3' deep where he sits to cool off after fishing; written up in book "200 MO Smallmouth Adventures"	Y	
8/19/2005	Priscilla	Stotts	Cole	Bois Brule Creek	1042	Recommend for SCR because Stream Team site in that segment		
8/24/2005	Tom	Ratermann	Boone	Boone County - General Comments		1. Review committee protected use when only 1 point was deep. Should further segment creek. 2. Review committee protected use when was close to depth criteria. Not in protocol.		Y
8/26/2005	John	Hoskins	Phelps	Bourbeuse River	2049	MDC staff observed the public swimming upstream of a county gravel mining operation.	Y	
6/16/2005	Charles E.	Crest	Phelps	Bourbeuse River	2049	Fishes and thinks no stream or lake should be a dumping place for cities or companies.		
8/26/2005	John	Hoskins	Lincoln	Brushy Fork	33	MDC staff saw children playing and splashing in the water.		
7/23/2005	Bill	Byram	Lincoln	Brushy Fork	???	Runs through his property and he and his friends swim. Also used for fire protection.	Y	
7/5/2005	Richard	Velugi	Lincoln	Brushy Fork	33	DNR must put in place full WQ protections		
8/26/2005	John	Hoskins	Phelps	Burgher Branch	1865	MDC staff observed the public swimming in a neighborhood approx. 1 mile DS of the Rolla WWTP.	Y	
8/19/2005	Priscilla	Stotts	Phelps	Burgher Branch	1865	Recommend for SCR because Stream Team site in that segment		
8/22/2005	Roy	Bridgewater	Butler	Cane Creek	2833	WWTP Chief operator of Neelyville; supplemental info for UAA - no additional evidence.		Y
8/26/2005	John	Hoskins	Benton	Cole Camp Creek	3303	MDC Staff observed swimming, wading and fishing.	Y	

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
FAX	Richie	Ware	Benton	Cole Camp Creek	3303	Petition signed by 65 people with addresses; Richie Ware is first legible signature; please do not remove use		
8/26/2005	John	Hoskins	Holt	Davis Ditch Creek	253	Flows through Sqaw Creek National Wildlife Refuge		
6/13/2005	Colleen, Robert, MW, RA	Annette	Miller	Dog Creek	1060	Do not exempt from the new WQ rules. Worried water will get into water table.		
6/13/2005	Flossie, Tim, Beth	Clark	Miller	Dog Creek	1060	Do not exempt from the new WQ rules. Worried water will get into water table.		
8/10/2005	William A.	Green	New Madrid	E Ditch #1	3107	The Malden Board of Public Works disagrees with DNR over the WBCR designation. The public works has obtained 8 interviews with landowners indicating that no one swims in E. Ditch # 1.		Y
8/26/2005	John	Hoskins	Sullivan	E. Fk. Locust Creek	608	Localized maximum depths over 6 feet and footprints in the sand going into one of these deep pools observed.	Y	
8/23/2005	Gary	Baskins	Henry	E Fk Tebo Creek	1282	Creek runs through property; in '70s & 80s his family swam, fished and waded in creek; people pull off Hwy Y to enjoy the water.		
8/16/2005	Tom	Colwell	Henry	E Fk Tebo Creek	1282	City of Windsor shouldn't be exempted. Creek is too polluted by Windsor to swim in today.		
8/20/2005	Glen & Louise	Crawford	Henry	E Fk Tebo Creek	1282	Lived and farmed near stream for 50 years; family has swum, waded, fished and floated in creek for years; rope swing.	Y	
8/21/2005	Christina	Friedle	Henry	E Fk Tebo Creek	1282	She swims in the creek and also fishes. Others boat, fish wade and swim.	Y	
8/22/2005	christina	Friedli	Henry	E Fk Tebo Creek	1282	People fish and swim in the stream at the first bridge west of town on 52. People also swim and fish in the fist and second bridges south of town on Y hwy. She is concerned about the health risk.	Y	

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/26/2005	Chenhong	Li	Newton	Elm Spring Branch	3227	If streams are exempted from protection, it will not only affect people who will work in the streams but will change the fate of the fish in those waters. Li may sample stream in the future (topminnow research project)		
8/24/2005	Michael	Bessert	Newton	Elm Spring Branch, Neosho R.		He is a biologist at the U. of Ne studying Plains Topminnow. They collected in Mo at 10 sites in the Osage, Gasconade and Spring R. drainages. He is concerned that these fishes are an indicator of High quality streams but they may be impacted by bacteria and viruses. He also saw recreational swimming and wading in at least 1/2 of the sites. Nearbt town, McElhany.	Y	
8/26/2005	John	Hoskins	Newton	Elm Spring Branch	3227	Stream flows through Crowder Conservation Area, 205 miles above Hickory creek where swimming occurs.)		
8/18/2005	Albert	Midoux	Newton	Elm Springs Branch	3227	Creek supplies water for the Neosho fish hatchery; says creek is a losing stream and that Stacia says it will get WBCR		
7/12/2005	Jill and Robert	Carter		Elm Springs Branch	3227	Supplies water to the fish hatchery which goes to Hickory Creek.		
8/19/2005	Wes	Nall	Newton	Elm Springs Creek (mean Branch?)	3227	This is a losing stream, please don't exempt. It shouldn't have been on the list to begin with.		
6/9/2005	Lauran	DeRigne	?	Flat Creek	?	Many children and families swim in the creek. Make companies and plants spend the extra time and money to keep our waterways clean.	Y	

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/24/2005	Michael	Bessert	Morgan	Gabriel	883	He is a biologist at the U. of Ne studying Plains Topminnow. They collected in Mo at 10 sites in the Osage, Gasconade and Spring R. drainages. He is concerned that these fishes are an indicator of High quality streams but they may be impacted by bacteria and viruses. He also saw recreational swimming and wading in at least 1/2 of the sites. Towns nearby, STover, Pyrmont, Florence	Y	
8/26/2005	Chenhong	Li	Morgan	Gabriel	883	Protect stream for plains topminnow, species of concern. "If streams are exempted from protection, it will not only affect people who will work in the streams but will change the fate of the fish in those waters.		
8/26/2005	Russ	Meyer	?	Grand River	?	Peddler Creek has a deep hole perfect for swimming. 100 yds below the confluence of Peddler & Grand River is a large deep hole (a favorite swimming place). Meyer is greatly concerned about untreated infectious waste creating an enormous health hazard.	Y	
8/22/2005	Jerold	Drake	Gentry	Grantham Creek	0478	Mr. Drake objects "to the removal of Peddler Creek and Grantham Creek from the Clean Water Act Protection". He states that Grantham Creek is a tributary to the West Fork of the Grand River, which serves as a second backup water supply for the cities of Stanberry, Grant City and Parnell and two water districts. He also stated that he "protest the discharge of phenol and bacteria into the water supply."		
8/22/2005	Jerold L.	Drake	Gentry	Grantham Creek	478	"I object to the removal of Peddler Creek and Grantlam Creek from the Clean Water Act Protection." Both streams are drinking water sources. "I protest the discharge of phenol and bacteria into the water supply."		

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/16/2005	Ron and Nancy	Nicholson	Gentry	Grantham Creek		Swims, fishes, canoes, floats etc. in the creek.	Y	
8/23/2005	Peggy	Drake	Worth	Grantham Creek	478	Grantham Creek runs into the West Fork of the Grand and is part of the source water supply for the Public Water Supply District #1, the District requests that the water be kept clear for the 478 connections.		
8/23/2005	City of Grant City	Grant City	Worth	Grantham Creek	478	The City of Grant objects to the removal of Peddler & Grantlam Creek for the Clean Water Act Protection. We wish to ensure our residents remain safe from the discharge of phenol and bacteria into our water supply.		
8/23/2005	Joe	Candri	Gasconade	Greedy Creek	3357	President of Missourians for the Preservation of Our Water and Environment; thinks we are exempting WWTP; requests we not give total exemption, but give WWTP 5 years to comply with WBCR.		
8/18/2005	Steve	Herrington	Gasconade	Greedy Cr.	3357	His family swim in a pool and wade, fish, catch crawdad's in the stream near the hwy. T bridge. He thinks it is wrong to allow contaminated water into the stream. The City's lagoons discharge near his property and they should not be allowed to put this water into the stream.	Y	
8/16/2005	Jack	Fritsch	Gasconade	Greedy Creek	3357	Don't exempt the creek. He waded and fished the creek as a boy and the creek was clear and beautiful. Now it is a cesspool that he wouldn't wade in. Please find the means to improve sewage treatment and clean up the creek.		
8/26/2005	John	Hoskins	Boone	Hinkson	1008	MDC staff observed the public swimming above and below I-70.	Y	
6/10/2005	Gary	Grigsby	Boone	Hinkson and others not named		walks in or near Hinkson and other creeks and wants them fully protected. Feels DNR and the CWC is failing their mission.		

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/23/2005	Suta	Forte'	Boone	Hinkson Creek	1008	Wades, floats and swims where it's deep enough. Please keep WBC designation.	Y	
8/23/2005	Susan	Franck	Boone	Hinkson Creek	?	Lives on the creek in Columbia;swims, wades and fishes in creek;rope swing down from her house where she has seen kids using and swimming.	Y	
8/16/2005	Jackie	Glenn	Boone	Hinkson Creek		Wants creek to retain WBCR ("Save the Meramec"). Reports creek used for swimming, floating, fishing, wading for years.	Y	
8/22/2005	Gary	Grigsby	Boone	Hinkson Creek	1008	Newscast photographer that wads in streams during video taping. "So, we are there and we are wading. And I for one would hate to be doing it with more pollution in the water."		
8/15/2005	Bryan	Hopkins	Boone	Hinkson Creek		Kayaks in stream and sometimes rolls his kayak and gets immersed in the creek.		
8/22/2005	Barbara	Hoppe	Boone	Hinkson Creek	1008	Reporting kayakers rolling in the stream near Old 63 and Broadway. Water is ~ 12 ft deep in this reach after rains. Kids swim in the same location. WBCR is accurate for Hinkson Creek."	Y	
8/22/2005	Barbara	Hoppe	Boone	Hinkson Creek		Creek runs along backyard; lived here since 1987;3 houses down there is a 90 degree bend where kayakers practice their rolls and kids swim;Agrees the WBCR is accurate.	Y	
8/22/2005	LR	Hults	Boone	Hinkson Creek		Family (incl dog) live very near the creek and swim, wade and walk in creek, esp at Grindstone Park. Have not even allowed dog in Hinkson this year because smells too nasty.	Y	
8/13/2005	Jeff	Littrell	Boone	Hinkson Creek		Has frequent WBC since 2000; floats, swims, wades and plays	Y

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/15/2005	Larry	Magliola	Boone	Hinkson Creek	1008	Do not agree that removal of the WBCR designation above I-70 is appropriate. Feel the submitted UAA was biased. 1. Found a rope swing and people swimming downstream of Barr's 013 at old Hwy 63. 2. Found a pool downstream from Barr's UAA location 012 near Broadway bridge that measured 3 feet deep and 150 feet long. 3. Found a pool at Barr's locations 010 and 009 (I-70 & 63 intersection) that was 3 ft. deep and 190 feet long. 4. Upstream of Barr's 009 and 008 location (close to Creekwood Estates - north of I-70) found a pool that was 3.7 feet deep. At Barr's location 007 (Wyatt Ln/Hinkson Cr. Rd.) measured the same pool Barr had measured at 3 ft. deep. Barr's report was more shallow.	Y	
8/18/2005	Ken	Midkiff	Boone	Hinkson Creek		Osage Grp. Sierra Club. Reports that there are pools US of I-70 "which meet and exceed the depth requirement for attaining [WBC]. Reports that "the stream flows through a rapidly urbanizing area and is used for swimming by neighborhood children and adults." States that the entire length of the creek "must be assigned" WBCR use.	Y	
8/13/2005	Carrie	Mills	Boone	Hinkson Creek	1008	Has frequent WBC since 2000; floats, swims, wades and plays	Y	
8/13/2005	Ellen	Pagan	Boone	Hinkson Creek	1008	She has used creek since she was 2 (now 21);fishing, wading, iceskating, playing; would love to see it cleaner		
8/13/2005	Jeanine	Pagan	Boone	Hinkson Creek	1008	Would like to seet he creek both north and south of I70 keep its WBCR designation;echos comments by Steven Pagan

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/22/2005	Steven	Pagan	Boone	Hinkson Creek	1008	Lived 20 years on Hinkson; fish, swim, iceskating and creeking several times per month; rope swing at Rock Quarry Park where college students swim even in winter; VWQM- could not find any life in the creek at Flat Branch (center of Columbia)	Y	
8/24/2005	Jessica	Suter	Boone	Hinkson Creek	1008	Rope swing at the back of Rock Hill Park in Boone Co. Many people jump and swim there...she did when younger.	Y	
8/18/2005	Barbara	Wren	Boone	Hinkson Creek	1008	Fish, swims and floats on the creek as do many others. Please retain WBCR designation.	Y	
8/22/2005	Chuck	Campbell (with 12 more signatures)	Cole	Honey Creek	1002	Opposed to the exemption of WBCR. Family and friends swim in 4 ft. pools up stream of Buffalo Road Bridge. We fish the stream. "I ask that you protect my family's health. I support the fishable/swimable goal of the Clean Water Act."	Y	
7/25/2005	Scott	Goodin	Cole	Honey Creek	1002	Stated that Honey Creek has been used for WBCR in the past 15 years.	Y	
8/22/2005	Roy	Williford	Cole	Honey Creek	1002	His son and friends swam in pool 3-4 ft. deep, 100 yds US from Bridge on Honey Cr. Rd. Wants it to be considered WBCR.	Y	
8/26/2005	John	Hoskins	Barry	Ketchum Hollow	3691	Flows through Roaring River SP		
7/13/2005	Valerie	Bassett	St. Francois	Koen Creek	2171	children fishing, wading, playing

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
7/15/2005	Becky	Troncale	St. Francois	Koen Creek	2171	children fishing, wading, playing		
7/13/2005	Jerry	Turk	St. Francois	Koen Creek	2171	children fishing, wading, playing		
7/13/2005	Kitrena	Wibbenmeyer	St. Francois	Koen Creek	2171	children fishing, wading, playing		
8/20/2005	Norman	Leppo	St. Francois	Koen Creek	2171	Chairman of Missouri Smallmouth Alliance, representing 300 members; creek has permanent pools which members fish		
8/24/2005	Tom	Ratermann	Boone	Little Cedar Creek	744	Committee considered overall stream depth and closeness to depth criteria. Did not consider hydraulics and physical characteristics. Also, did not reflect the true measurements: Only met the average depth in 1 of 6 sites and none met max. depth Remove WBCR desig.		Y
8/22/2005	James N.	Huckins	Texas	Little Pine Creek	3629	He is a Sr. Research Chemist with USGS who states these streams should "not be downgraded to SCR" because of potential health risks. Feels the creeks pollution assimilation and dilution capacity for pollution is low and swimmers will not be protected. Reports a small, private park just upstream from mouth "probably still used by locals." This creek runs into the South Fork of the Jacks Fork River 400 feet upstream of the Hwy 4830 crossing which is a popular swimming area. The confluence is also approx. 0.7 miles upstream of The Prongs where the NOSR begins. It's listed in Louis C. White's book, "Ozark Hideaways" and Chuck Tryon's book, "200 Missouri Smallmouth Adventures." States he and other wade fisherman often sit down in pools to cool off during fishing.

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/22/2005	James N.	Huckins	Texas	Little Pine Creek	3629	Senior environmental research chemist with USGS, concerned fisherman; creek's mouth is 400' upstream of county road 4830 crossing, which is a very popular swimming area on S Fk of Jacks Fork River; also a small private park near mouth; stream is listed in "Ozark Hideaways" as well as "200 MO Smallmouth Adventures";urges WBCR, not SCR		
8/26/2005	Chenhong	Li	Pulaskie	Little Pine Creek	3629	If streams are exempted from protection, it will not only affect people who will work in the streams but will change the fate of the fish in those waters. Li may sample stream in the future (topminnow research project		
8/24/2005	Michael	Bessert	Pulaski	Little Piney	3629	He is a biologist at the U. of Ne studying Plains Topminnow. They collected in Mo at 10 sites in the Osage, Gasconade and Spring R. drainages. He is concerned that these fishes are an indicator of High quality streams but they may be impacted by bacteria and viruses. He also saw recreational swimming and wading in at least 1/2 of the sites. Nearby towns, Evening Shade, Plate, Roby.	Y	
8/20/2005	Norman	Leppo	Texas & Pulaski	Little Piney [Pine] Creek	3629	Chairman of Missouri Smallmouth Alliance, representing 300 members; this creek is a fishing stream		
8/26/2005	John	Hoskins	Clinton	Little Platte River	352	MDC work requires compete body submergence to do mussel sampling. Also observed the public swimming in theis stream.	Y	
8/16/2005	Melody	Torrey	Putnam	Little Shoal Creek	651	Hwy 129 bridge in Mendota- interviewed a family that swims and fishes there in the past 10 years. Bridge at Maple Trail- reports she and a friend swam the early to late 1980s.	Y	
8/17/2005	Melody	Torrey	Putman	Little Shoal Creek	651	Swim and fish in the last 10 years, Streamteam 714	Y

7/12/2005	Jenny	Tucker	Barton	North Fork Spring River	3188	Her children swim in the creek.	Y	
8/12/2005	Ronald	McClellan	Jasper	North Fork Spring River	3188	Has a private camping area on the creek and swim and fish in it regularly.	Y	
8/26/2005	John	Hoskins	Adair	North Fork Salt River	113	MDC work requires complete body submergence to do mussel sampling.	Y	
8/26/2005	John	Hoskins	Lincoln	Paris Branch	176	MDC staff saw children playing and splashing in the water.		
8/20/2005	Jess	Cole	Gentry	Peddler Creek	470	Gentry is opposed to the Peddler Creek, East of Gentry, being exempt from state's pollution rules.		
8/22/2005	Jerold L.	Drake	Gentry	Peddler Creek	470	"I object to the removal of Peddler Creek and Grantlam Creek from the Clean Water Act Protection." Both streams are drinking water sources. "I protest the discharge of phenol and bacteria into the water supply."		
8/22/2005	Jerold	Drake	Gentry	Peddler Creek	470	Mr. Drake objects "to the removal of Peddler Creek and Grantham Creek from the Clean Water Act Protection". He states that Peddler Creek is a tributary to the Middle Fork of the Grand River, which serves as a backup water supply for the cities of Stanberry, Grant City and Parnell and two water districts. He also stated that he "protest the discharge of phenol and bacteria into the water supply."		
8/19/2005	Jim	Mahoney	Gentry	Peddler Creek	470	Do not want these creeks to be exempted from the CWA, use the Grand for recreation (canoeing) and this is in Grand River basin.

8/19/2005	Kenny	McGinley	Gentry	Peddler Creek	470	Gentry is opposed to the Peddler Creek, East of Gentry, being exempt from state's pollution rules.		
8/26/2005	Russ	Meyer	Gentry	Peddler Creek	470	Peddler Creek has a deep hole perfect for swimming. 100 yds below the confluence of Peddler & Grand River is a large deep hole (a favorite swimming place). Meyer is greatly concerned about untreated infectious waste creating an enormous health hazard.		
8/16/2005	Ron and Nancy	Nicholson	Gentry	Peddler Creek	470	Swims, fishes, canoes, floats etc. in the creek.	Y	
8/10/05 (after date)	Audrey	Walker	Gentry	Peddler Creek	470	Walker and 15 other individuals have signed a letter requesting protection for the creek. "Children play in the water (East of Gentry) and may get water in eyes, ears and mouth. Don't exempt the creek from state's pollution rules."		
8/23/2005	Peggy	Drake	Worth	Peddler Creek	470	Peddler Creek runs into Middle Fork and is part of the source water supply for the Public Water Supply District #1, the District requests that the water be kept clear for the 478 connections.		
8/23/2005	City of Grant City	Grant City	Worth	Peddler Creek	470	The City of Grant objects to the removal of Peddler & Grantlam Creek for the Clean Water Act Protection. We wish to ensure our residents remain safe from the discharge of phenol and bacteria into our water supply.		
8/26/2005	John	Hoskins	Boone	Perche Creek	1013 or 1023	MDC staff observed the public swimming in this creek.	Y	
8/22/2005	Gary	Grigsby	Boone	Perche Creek	1013 or 1023	Newscast photographer that wades in streams during video taping. "So, we are there and we are wading. And I for one would hate to be doing it with more pollution in the water."

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/24/2005	Millicent	Kalil	Texas	Pine Creek [Branch]	3608	Karst area; concerned with contamination of ground water if QWS loosened; not in favor of heavy chlorination; believes there are other more environmentally responsible ways to purify water that should be explored.		
8/19/2005	Priscilla	Stotts	Grundy	Raccoon Creek	586	Recommend for SCR because area gets special protection due to Eco-trips. Need to talk to Grundy Co SWCD		
8/23/2005	Joe	Candri	Gasconade	Red Oak Creek	3361	President of Missourians for the Preservation of Our Water and Environment; thinks we are exempting WWTP; requests we not give total exemption, but give WWTP 5 years to comply with WBCR.		
8/19/2005	Mark	Ehiert	Gasconade	Red Oak Creek	3361	Nobody swims or fishes in the creek because the Owensville and Redbud TPs have polluted the creek. He wades and canoes in it. One of the observations (Rosebud at Highway T) is Red Oak Creek not Soap Creek.		
8/1/2005	Mark	Ehlert	Gasconade	Red Oak Creek	3361	Swam and fished on their property fronting creek in 1960s and 70s. In 70s locals joked about swimming in Owensville sewer. Now helps neighbor kid trap (SCR). Doesn't want creek "exempted" from rules.	Y	
8/16/2005	Jack	Fritsch	Gasconade	Red Oak Creek	3361 or 3359	Don't exempt the creek. He waded and fished the creek as a boy and the creek was clear and beautiful. Now it is a cesspool that he wouldn't wade in. Please find the means to improve sewage treatment and clean up the creek.		
8/23/2005	John	Greenwood	Gasconade	Red Oak Creek	3359 or 3361	Even shallow tribs should be protected since there are no other sources of water recreation in Gasconade Co and parents use the shallow creeks to take their kids swimming. DNR should not try to get around an EPA mandate.

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/23/2005	Kevin	Engler, Senator	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	Senator Engler sent a letter regarding South Fork Isle du Bois and Big Bottom Creeks in Ste. Genevieve County. He stated that "constituents have contacted my office to express their concerns about exemptions from these streams." He has been told that "these streams are still used for swimming and other activities during which water could get into a person's eyes, ears or mouth." Senator Engler included copies of correspondence sent to his office regarding this stream. Those comments, sent by Nancy and Leo Havicon of Bloomsdale and Darriel and Betty Coleman of Bloomsdale were submitted to the department separately and are being reviewed.	Y	
8/24/2005	Samuel	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y	
8/24/2005	William L.	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y	
8/24/2005	Robert	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y

8/24/2005	William K.	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y	
8/24/2005	Geraldine	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y	
8/24/2005	Cheryl	Noce	Ste. Genevieve	South Fork Isle Du Bois Creek	1738	A letter urging the department to protect the stream and remove them "from the exemption listing." The letter states: "I, along with other members of my family, have used the South Fork of Isle du Bois Creek after 1975 for the purposes of fishing, wading and swimming."	Y	
8/15/2005	Nancy	Havicon		South Fork of Isle du Bois Creek	1738	Grandchildren and others swim and play in the creek.	Y	
8/22/2005	Tara	Henson		South Fork of Isle du Bois Creek	1738	Kids wade and play in daily at the TT bridge.		
7/27/2005	Charles	Hird	Saline	Salt Fork	899	Adding disinfection will cost the residents and industries in Marshall at least \$1 mil plus operational cost. They think the \$\$ would be better spent upgrading collection. It is hard to justify when very few swim in the creek. Also, Marshall applied for a new permit in 2004 & does not have it yet. They feel they should be given 8 years to implement requirements since it's our fault they don't have a permit at present. Also, the streams are channelized and do not facilitate recreation of any sort.		Y

LIST 1

**WATERBODIES WHERE AT LEAST ONE COMMENT DISPUTES THE FINDINGS OF THE UAA**

Postmark Date	First Name	Last Name	WB County	WB Name	WBID #	General Comments	Specific Claim of WBC Use or evidence that meets depth criteria	Claim that WBCR should be removed
8/24/2005	Michael	Bessert	Lawrence	Spring River		He is a biologist at the U. of Ne studying Plains Topminnow. They collected in Mo at 10 sites in the Osage, Gasconade and Spring R. drainages. He is concerned that these fishes are an indicator of High quality streams but they may be impacted by bacteria and viruses. He also saw recreational swimming and wading in at least 1/2 of the sites. Towns nearby Verona.		
8/26/2005	John	Hoskins	Lawrence	Spring River	3167	MDC staff has snorkled 105 miles from the site of the UAA.		
8/19/2005	Priscilla	Stotts	Lawrence	Spring River		Recommend for SCR because Stream Team site in that segment		
7/11/2005	Eric	Ferrell	Many	Spring River Watershed		Do not lower exempt any creeks in the watershed from tougher water quality rules and regulations. The watershed already has too many problems.		
8/23/2005	Ralph & Joan	Breese	Crawford	Stater Creek	1850 (?)	The Breeses own property on Stater Creek and their "grandchild, children and friends have all enjoyed playing and fishing the in this creek..." Their letter states that the creek has "water flowing year round" and have never seen the creek dry. They are asking that Stater Creek not be exempted from the "antipollution rules."	Y	
8/24/2015	M.	de la Torre, MD	Crawford	Stater Creek	1850	Rebuttal to UAA	Y	
8/16/2005	Jerry and Mary Lou	Hubble	Crawford	Stater Creek	1850	Children and adults swim and play in the creek. Don't let raw sewage be dumped in the creek. Some pools 2-3 foot deep.	Y	
8/13/2005	Kristine	Suntrup	Crawford	Stater Creek	1850	Kids swim at 3 -4 places on their property all summer; holes are 3-4 feet deep and spring-fed; photo of kids swimming; reports that the Dace family, former owners, used the property for swimming in the "60s, 70s, and "80s	Y

8/26/2005	Brad	Jackson	Benton	Trib to Bird Branch	3294	Jackson receives drinking water from Truman Reservoir. Streams discharging into the basin should be protected.
8/24/2005	Brad	Jackson	Benton	Trib. To Bird branch		Drain to Truman Lake
8/24/2005	Brad	Jackson		willow Fork		Collet fish from this stream.
8/26/2005	Brad	Jackson		Willow Fork		"I desperately urge you to not allow any Mo Streams to be exempt form protection."
8/24/2005	William	Reeves, Ph.D.	Franklin	Bachelor Creek	2035	UAA 0340: less than 3 sites, no discussion of likelihood of algae deterring WBCR or possible remedies, no water quality sampling, no interviews, study of at least one year necessary, incorrect dates of UAA and receipt on IRC report
8/24/2005	William	Reeves, Ph.D.	Sullivan	Barber Creek	622	UAA1244: Criticisms - Data collected early in day, before WBCR likely to be observed, UAA notes presence of excessive algae and evidence of trash dumping but does not consider whether these factors impede public willingness to participate in WBCR; erosion of stream banks indicate hydrologic modification, UAA does not consider how mediation might impact attainability; no water quality data collected; longer term study needed; IRC recommendation should be reversed.
8/24/2005	William	Reeves, Ph.D.	Pettis	Basin Fork	867	UAA 0175: Criticisms - data collected before noon, unlikely time for WBCR being observed; depths estimated rather than measured; cattle access and presence of oil on water surface may impact public's willingness to engage in WBCR; recommendations should be reversed; also, this UAA was done by Ann Crawford, who sits on IRC committee - possible conflict of interest; UAA and IRC report must be retracted, redone, and resubmitted.
8/24/2005	William	Reeves, Ph.D.	Boone	Bear Creek	1015	UAA 0208: determination made solely on depth, no water quality sampling, study of at least one year necessary

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	William	Reeves, Ph.D.	Pulaski	Bell Creek	1470	UAA 0262: Criticism - map is not readable, therefore submission is incomplete and must be withdrawn; no water quality data collected; no interviews conducted to determine possible WBCR at other times of year; recommendation of IRC should be reversed. longer term study is needed.
8/24/2005	William	Reeves, Ph.D.	Ste. Gevevieve	Big Bottom Creek	1746	UAA 0310: Criticisms: Impact of cattle on hydrology and water quality not considered; UAA notes presence of excessive algae and, at one site, a colony of red bacteria, and covered with "oily scum" at another site but does not consider whether this condition could limit public' willingness to participate in WBCR; no water quality data were collected; no interviews were conducted, so conclusion about lack of WBCR at other times of year is conjecture; neither UAA or IRC report considers whether WBCR could be attainable if dam was operated to allow sufficient flows for WBCR; IRC also ignored results of interview in UAA that swimming occurs in Big Bottom Creek; recommendation of IRC should be reversed.
8/24/2005	William	Reeves, Ph.D.	Bates	Big Deer Creek	1276	UAA 0239: unlikely time for WBCR, no discussion of impact of oil or trash on WBCR, no water quality sampling, no interview, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Daviess	Big Muddy Creek	441	UAA 0095: No water quality sampling, no interviews, study of at least one year necessary

8/24/2005	William	Reeves, Ph.D.	Phelps	Burgher Branch	1865	UAA 0331: Criticisms - fewer than three sites examined, in violation of UAA protocol; map is unreadable; submission is therefore incomplete and should be withdrawn; UAA modified at signature lines to note "estimated based on my observations" indicating guesswork; no water quality data collected; IRC report relies on interviews about wading and a local stream tieam, but no interviews included in UAA aside from scribble about "playing"; longer term study is needed; IRC recommendation should be reversed.
8/24/2005	William	Reeves, Ph.D.	Texas	Burkhart Branch	3627	UAA11208: done on one weekday, not weekend; should have been over one yr especially to study flow and use; less than the 3 minimum sites required by protocol; the map didn't have a scale; no mention of cattle use/access impacting hydrology; no WQ data; no interviews conducted; use since 11/28/75 unknown; Wants explanation of why the lower portion of the stream was not surveyed (NOTE: DNR relied on public access points. There were none in the lower segment.); UAA should be retracted; information IRC based recommendation on is insufficient so should retain WBCR use.
8/24/2005	William	Reeves, Ph.D.	Texas	Burton Branch	1572	UAA 1076: Criticisms - data collected at two sites, in violation of UAA protocol which requires at least three sites; map has 1:62500 scale which does not follow UAA protocol guidelines; creek was dry with pools at some locations indicating that flows are sometimes sufficient to fill channel, UAA made no attempt to investigate when such flows would occur or if they would support WBCR; no water quality data collected; no interviews conducted; longer term study needed; IRC recommendation should be reversed.

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	William	Reeves, Ph.D.	Texas	Johnson Branch	1590	UAA 1086: Criticisms - UAA conducted at single site in violation of UAA protocol which requires using at least three sites; creek was dry with pools at some locations indicating that flows are sometimes sufficient to fill channel, UAA made no attempt to investigate when such flows would occur or if they would support WBCR; no water quality data collected; no interviews conducted; longer term study needed; IRC recommendation should be reversed.
8/24/2005	William	Reeves, Ph.D.	Boone	Kelley Branch	1018	UAA 0210: unlikely time for WBCR, footpath in photograph not mentioned in report, no indication of relation of fish heads to recreational activity, no water quality sampling, no interviews, study of at least one year necessary; UAA 0503: unlikely time for WBCR, no interviews, study of at least one year necessary, interview mentioning canoeing is referred to in IRC report but not UAA
8/24/2005	William	Reeves, Ph.D.	Barry	Ketchum Hollow	3691	UAA 1213: map is unreadable, no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Bates	Knob Creek	1303	UAA 1029: unlikely time for WBCR, no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	St. Francois	Koen Creek	2171	UAA 0357: Criticisms - UAA form modified with note - "estimated based on my observations", indicating that estimates were used rather than measurements; UAA observed that creek was dry on date of study, DNR staff member who conducted study note "Stream is totally dry. St. Francois County is in an extreme drought." This does not represent base flow conditions as advised by UAA protocol; long term study is required; UAA must be withdrawn; recommendations of IRC should be reversed.

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	William	Reeves, Ph.D.	Dunklin	Lateral Ditch #2	3113	UAA 0420: study days too cool, no discussion of whether algae and odors deter WBCR or possible remedies, no water quality sampling, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Stoddard	Lick Creek Ditch	2890	UAA 0396: Criticisms - UAA notes presence of excessive algae and evidence of trash dumping but does not consider whether these could impede public willingness to participate in WBCR; average depth measured at one site is 1.5 feet and maximum was 3.5 feet, IRC ignores this fact and concludes that creek is too shallow at all sites; UAA notes ongoing drought, but this does not represent baseline flow according to UAA protocol; no water quality data were collected and no interviews were conducted so conclusions about lack of WBCR use at other times of year are conjecture; longer term study needed; IRC recommendation should be reversed.
8/24/2005	William	Reeves, Ph.D.	Boone	Little Cedar Creek	744	UAA 0146: no water quality sampling, IRC recommendation refers to interviews not mentioned anywhere else, decision to remove WBCR above site 004 is arbitrary, no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Bates	Little Deer Creek	1277	UAA 1023: no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Phelps	Little Dry Fork	1864	UAA 0330: Criticisms - study sites not clearly marked on map; average and maximum depths were not considered by IRC; presence of bass and sunfish contradict alleged shallowness of stream; no water quality data collected; no interviews conducted to determine possible WBCR at other times of year; recommendation of IRC should be reversed. longer term study is needed.

COMMENTERS SUBMITTING MULTIPLE COMMENTS (15 OR MORE)

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	William	Reeves, Ph.D.	Ste. Gevevieve	South Fork Isle Dubois Creek	1738	UAA 0308: Criticisms: Data collected early in day, before WBCR would be likely; on signature line, "true and accurate" is crossed out and replaced with "estimated based on my observations" which is unacceptable; impact of trash dumping, algal growth on public's willingness to participate in WBCR not considered; no water quality data were collected and no interviews were conducted so conclusions about lack of WBCR use at other times of year are conjecture; longer term study needed; IRC recommendation should be reversed.
8/24/2005	William	Reeves, Ph.D.	St. Charles	Spencer Creek	224	UAA 0046: Criticisms - UAA conducted at two sites, in violation of Recreational Attainability Analysis Protocol, which requires at least three sites; UAA does not include information on weather for the previous seven days; no depth data collected for upstream reach; UAA form modified with note - "estimated based on my observations", indicating that estimates were used rather than measurements; no water quality data collected; long term study is required; IRC report relies on "testimony" about people playing in creek, but no such information is provided for public review; UAA must be withdrawn; recommendations of IRC should be reversed.
8/24/2005	William	Reeves, Ph.D.	Dent	Spring Branch	1870	UAA 0332: unlikely time for recreational use, no data at site #1, no discussion of whether algal growth and odor deter WBCR and possible remedies,
8/24/2005	William	Reeves, Ph.D.	Lawrence	Spring River	3167	UAA 1149: less than three sites, no effort to determine if stream is losing or presence of hydrologic modifications, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Crawford	Stater Creek	1850	UAA 0327: no hydrological survey, no water quality sampling, no interviews, study of at least one year necessary

8/24/2005	William	Reeves, Ph.D.	Crawford	Whittenburg Creek	1899	UAA 0334: unlikely time for recreational use, less than 3 sites, unreadable map, no hydrological survey, no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	William	Reeves, Ph.D.	Clay	Wilkerson Creek	319	UAA 0069: unlikely time for WBCR, average depth criterion met at site 1, maximum depth criterion met at site 2, no water quality sampling, no interviews, study of at least one year necessary
8/24/2005	Dan	Sherburne	Boone	Bear Creek	1015	Only 1 of 8 sites in classified seg; UAA protocol requires 3 sites within 2 miles of WWTP; 2 interviews indicate SCR
8/24/2005	Dan	Sherburne	Bates	Big Deer Creek	1276	001 in unclassified portion; only 2 other sites assessed; has depth (contrary to committee results); should at least be "Inconclusive"
8/24/2005	Dan	Sherburne	Bates	Bones Branch	1301	Depth approached criteria in all 3 sites in summer drought; no interviews; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Callahan Creek	1028	1 site not in classified seg; DS site 5 mi US of mouth; several measurements close to criteria; no interviews; fishing lure at 004; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Barry	Carney Creek	2389	Site 01 misplaced; only 2 sites checked & lower one 2 mi US of mouth; inadequate to make assessment
8/24/2005	Dan	Sherburne	Callaway	Cason Branch	729	Only 2 sites; bunched in middle of seg; no sites within 2 miles of the WWTP; no interviews; change to "Inconclusive"
8/24/2005	Dan	Sherburne	Benton	Cole Camp Creek	3303	2 of 6 sites on unclassified seg; 3 others were grouped too close, so in effect, only 2 sites surveyed; sign implying stream full of poop; no interviews; should get WBCR
8/24/2005	Dan	Sherburne	Callaway	Collier Creek	721	Sites 001 & 002 on Clabber Creek, not Collier; 003 inaccessible; must be "Inconclusive"
8/24/2005	Dan	Sherburne	Callaway	Cow Creek	707	Since TT's UAA not posted (returns "page cannot be found"), cannot count Remove Use"; must be "Inconclusive"
8/24/2005	Dan	Sherburne	Butler	Craven Ditch	2816	Sites too far apart to provide good assessment; no interviews; "Inconclusive"

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	Dan	Sherburne	Clay & Clinton	Dick's Creek	U [320?]	Says this is unclassified;depth approached criteria at the lower 2 of 3 sites; no interviews; no recommendation since Unclassified
8/24/2005	Dan	Sherburne	Bates	Double Branch	1298	Incorrectly surveyed unclassified portion; came close to meeting depth therefore likely that the DS part had depth; no interviews; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Chariton & Linn	East Yellow Creek	597	Only 4 sites in a 32-mi segment; all in lowest 6 mi; no interviews; grossly inadequate; must be "Inconclusive"
8/24/2005	Dan	Sherburne	Bates	Gillum Creek	1307	2 of 3 sites were on unclassified segment; no interviews; "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Hinkson Creek	1008	Site 001 in unclassified seg;UAA requires 3 sites near discharge; 12 discharges, 10 of them US site 009; no interviews; "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Hominy Creek	1011	11 of 12 sites on unclassified seg; the other site was beneath the hwy;this one site taken as representative of whole stream; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Kelley Branch	1018	2 sites in unclassified seg;depths approached criteria; one at low water crossing probably because water low there; Barr's depths consistently lower than DNRs; no interviews; not enough sites near discharges; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Barry	Ketchum Hollow	3691	Survey on wrong stream;stream in karst-losing stream; only 1 site
8/24/2005	Dan	Sherburne	Bates	Knob Creek	1303	Only 2 of 3 sites in classified segment; no sites surveyed in lowest 2.5 miles; sites were close to depth criteria; no interviews;should be "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Little Cedar Creek	744	001 in unclassified portion; other 2 sites too close, ineffect only 4 sites surveyed;Modify Use OK, but US seg should be "Inconclusive"
8/24/2005	Dan	Sherburne	Bates	Little Deer Creek	1277	Only 1 of 3 sites in classified seg;no interviews; "Inconclusive"
8/24/2005	Dan	Sherburne	Benton	Little Tebo Creek	1205	Only 4 of 9 sites on Classified seg; RCR removes use from unclassified seg; no interviews; retains use on classified seg.

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	Dan	Sherburne	Andrew	Mace Creek	267	Only 2 of 3 sites checked (001 was too dangerous); no sites on lower 2.5-3mi seg; no interviews;should have WBCR
8/24/2005	Dan	Sherburne	Boone	N Fk Grandstone Ck	1010	1 of 3 in unclassified seg;flows at DS sites contradict pictures (Barr again); no interviews; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Barton, Dade	N Fk Spring River	3188	Site 002 not on River, but on Kyle Creek;depths close to criteria in 2 US most sites, and 11 mi apart, could have depth in between; no interviews; easy access to population of town;"Inconclusive"
8/24/2005	Dan	Sherburne	Barry	Natural Bridge Hollow	2415	Wrong stream surveyed;no interview; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Adair & Schuyler	North Fork Spring River	113	No legal descriptions;inappropriate maps;Site 006 on map, but no data sheet;no interviews; only 7sites for 14.5 segment;UAA inadequate to assess use
8/24/2005	Dan	Sherburne	Bates	Panther Creek	1295	Only 3 sites in 11 mi of stream; sites grouped in middle of seg;deepest site was close to criteria so likely met criteria in unchecked portion; no interviews; should be at least "Inconclusive"
8/24/2005	Dan	Sherburne	Caldwell	Panther Creek	521	No sites checked within 2 miles of WWTP; no interviews; change to "Inconclusive"
8/24/2005	Dan	Sherburne	Boone	Perche Creek	1023	1 site on wrong creek; so only 5 sites for 21 mi of stream; no interviews; change rec. above site 004 to "Inconclusive"
8/24/2005	Dan	Sherburne	Butler	Pike Slough	2817	4 sites bunched in middle os seg; lowest 3 miles not surveyed; should be "Inconclusive"
8/24/2005	Dan	Sherburne	Callaway	Richland Creek	715	Only 2 sites surveyed near WWTP; 10 interviews (kudos to ERC); one interview indicated swimming in a hole; should be WBCR or Inconclu.
8/24/2005	Dan	Sherburne	Boone	Sugar Branch	1029-30	Only 4 site for both segments together (Barr); no interviews; near populated area;"Inconclusive"
8/24/2005	Dan	Sherburne	Barry	Sugar Camp Hollow	2402	Believe wrong stream was surveyed; no surveys done;"Inconclusive"
8/24/2005	Dan	Sherburne	Benton	Trib to Bird Branch	3294	UAA done on wrong stream; no interviews
8/24/2005	Dan	Sherburne	Barry	Trib to Rockhouse Creek	2405	Only 1 site on 2.5 seg; karst/may be losing; no interviews; should be "Inconclusive"

7/12/2005	Scott	Woodbury	Washington	Courtois Creek	1947	The creek is used by many people for fishing, swimming and other recreational activities. Also he has monitored the stream with stream team and noted many invertabrates and other wildlife.
8/23/2005	Ron	Coleman	?	Courtois River	?	Open Space Council, Exec. Dir.; please retain WCBR use
7/6/2005	Robert	Fluehr	Lincoln	Cuirve River	152	No streams in Lincoln co. should be exempt from CWQ stds. Sewers are a much bigger problem than livestock that the state is trying to keep out of streams.
7/6/2005	Paul	Haas	Lincoln	Cuirve River	152	Fishing, Swimming, water skiing, from old bridge at Chain of Rocks to Miss. R. Septics empty into Becklas Branch I mile north of Cuirve R. at Chain of Rocks . They need to be connected to Village of Chain of Rocks sewer system.That would keep the contamination out of the Cuirve R.
8/15/2005	Gloria Attoun	Bauermeister		Current River		swim
8/18/2005	Pamela	Eddy		Current River		Rivers used equally for floating, swimming, wading, and tubing. "definetely full body contact rivers."
8/13/2005	Emily	Ficker		Current River		She lives along the Current and 100's of people swim in it. Hellbenders are being effected by the water.
8/12/2005	Paul	Gibson		Current River		As former Interpretive Ranger at Ozark NSR, many people use the river.
8/13/2005	Renee	Gray		Current River		Used for swimming by many.
8/14/2005	Dan	Holdinghaus	Crawford	Current River		He swims regularly when he floats. It needs protection.
7/15/2005	Mathew A.	Koeneker	Shannon	Current River	2636	enjoys Current & Jack's Frk H2Osheds; opposes Pb mining;specifically lists bacteria levels and opposes new rules
7/15/2005	Ben	Koeneker	Shannon	Current River	2636	; votes down proposed wasteH2O dumping

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/15/2005	Rep. Kevin	Threlkeld	St. Charles and Franklin	Dardenne Creek	221, 222	Flows through populated area and is used for wading and playing. Do not allow exemptions and prevent further degradation of this stream.
8/23/2005	Bettie	Yahn-Kramer	St. Charles	Dardenne Creek	0222	Letter comments on the UAAs for several waterbodies in St. Charles County. This and other creeks in St. Charles County are accessed by the public and used in "water features" in public parks. Children use parks access to these creeks to fish and play. Letter states support for the WBC designation for this creek.
7/11/2005	David	Duncan	Holt	Davis Creek Trib	254	Creek is very shallow, usually 1 foot or less. Not suited for swimming or boating and have never observed such. Trib flows to Davis Creek that goes into Squaw Creek Ntl Wildlife Refuge, approx. 1 mile from Mound City discharge. The city has new lagoon system and feels it meets permit limits. Disinfection could be harmful to wildlife in the refuge.
8/15/2005	Norvel	Buenniger	?	Del DuBois Creek	U	The creek has been destroyed, they now have tires, glass bottles, plastic, etc. in it. At one time you could swim and catch fish. Don't let the stream get totally destroyed.
7/13/2005	Valerie	Bassett	St. Francois	Doe Run Creek	2885	adults wade, children play

SEPTEMBER, 2005

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/7/2005	Mary	Johnston	Barry	Hudson Creek	3237	UAAs are a devious way to allow agri-business to dump. This creek is in the headwaters of Shoal Creek and the source of her drinking water.
8/16/2005	Mary	Jones	Barry	Hudson Creek	3237	Is used for swimming, flows into Capps Creek.
8/15/2005	Rex	Kay	Barry	Hudson Creek	3237	Stream is used by kids and adults for swimming.
8/15/2005	Glenn	Kristek	Barry	Hudson Creek	3237	Keep this creek on the list of water testing. It is part of his heritage.
8/20/2005	Kathryn	Lampe	Barry	Hudson Creek		Friend of Jolly Mill Park; please protect this creek
8/17/2005	Mrs. Rex	Land	Barry	Hudson Creek	3237	Please don't drop the WBCR designated use.
8/17/2005	Alice	Langstraat	Barry	Hudson Creek	3237	This creek is used for swimming.
8/20/2005	John	Lemaster	Barry	Hudson Creek		Has hunted bait in creek since 1960s; others hunt, swim and wade.
8/22/2005	Lowell & Thelma	Long		Hudson Creek	3237	stream is much used for recreation, fishing, and wading
8/17/2005	Jane	Lovett	Barry	Hudson Creek	3237	Please don't give an exemption of water testing.
8/17/2005	Denise	Lucas	Barry	Hudson Creek	3237	Thank you for the support and applaud all efforts to continue monitoring and protect the stream.
8/17/2005	Denise	Lucas	Barry	Hudson Creek	3237	Thank you for the support and applaud all efforts to continue monitoring and protect the stream.
8/15/2005	Judge and Mrs. Almon H.	Maus	Barry	Hudson Creek	3237	Do not relax standards.
8/17/2005	Jim	Meone	Barry	Hudson Creek	3237	Please help us keep the creek clean.
8/19/2005	Bill & Janet	Montgomery	Barry	Hudson Creek		Do not allow Hudson Creek to be exempted
8/16/2005	Emma Rose	Moore	Barry	Hudson Creek	3237	Don't exempt, her family uses Jolly Mill Park.
7/12/2005	Ellis	Motley	Barry	Hudson Creek	3237	Swims, traps, fishes in creek since early 1970s. Now grandkids swim in the creek. Is concerned about farm industry spreading waste as well as industry and big towns.

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/16/2005	Ellis	Motley	Barry	Hudson Creek	3237	Is used for swimming, flows into Capps Creek, goes through Jolly Mill Park.
7/7/2005	Marissa	Motley	Lawrence	Hudson Creek		She and her family swim in the creek. They are upset that the CWC is exempting the creek from CW Stds.
8/17/2005	Arthur	Murray	Barry	Hudson Creek	3237	Mr. Murray expressed a concern that exempting Hudson Creek from "water testing" will adversely impact Jolly Mill Park. Hudson Creek flows into Capps Creek which provides recreation at Jolly Mill Park. Mr. Murray states that "the stream is such an integral part of the park and the adjoining residences, reducing the quality of water would, most likely shut down the park and significantly reduce the value of the adjoining homes."
8/8/2005	Dora Moore	Oliver	Barry	Hudson Creek	3237	Protect Jolly Mill Park, don't let the creek be a toxic dumping ground.
8/18/2005	Amanda	Ostertag	Barry	Hudson Creek		Do not exempt creek from water testing
8/17/2005	Charles and Shirley	Peiter	Barry	Hudson Creek	3237	Please don't give an exemption of water testing.
8/20/2005	Wayne	Pendergraft	Barry	Hudson Creek		Please continue to protect this water system
8/15/2005	Mr. and Mrs. WE	Petts	Barry	Hudson Creek	3237	People swim and fish in the creek.
8/17/2005	Nancy	Phelps	Barry	Hudson Creek	3237	Do not exempt the creek. This runs through Jolly Mill Park.
8/15/2005	Lee and Piper	Price	Barry	Hudson Creek	3237	Safeguard this stream.
8/17/2005	Elaine	Procter	Barry	Hudson Creek	3237	Please monitor the water in the creek.
8/13/2005	Leo	Radke	Barry	Hudson Creek	3237	Please to not exempt from water testing. Runs through Jolly Mill Park.
8/15/2005	Frank	Rauen	Barry	Hudson Creek	3237	Don't exempt from testing. Concerned about water supply.
8/16/2005	Frank	Rauen	Barry	Hudson Creek	3237	Don't exempt from testing. Must be protected so they can be used for wading and swimming.

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/15/2005	Lauretta	Rhinehart	Barry	Hudson Creek	3237	Children and Grandchildren swim and play in the creek. Borders Jolly Mill Park.
8/22/2005	Jerome	Richards, Mr. & Mrs.		Hudson Creek	3237	
8/15/2005	Don and Carol	Roberson	Barry	Hudson Creek		Don't exempt from testing. People use for swimming. Goes through Jolly Mill Park.
8/22/2005	Martin & Beverly	Roetto	Barry	Hudson Creek	3237	Please do not exempt from water testing; have lived here for 50 yrs
8/19/2005	Richard	Scheihing	Barry	Hudson Creek	3237	Mr. Scheihing urgently requests that the department "reverse any decision to drop Hudson Creek from the whole body contact designation." Hudson Creek flows into Capps Creek. People "wade, swim, and fish Capps Creek." Capps Creek forms the mill pond at Jolly Mill Park, which is a recreation area for many people.
8/25/2005	Charles	Scialfa	Barry	Hudson Creek		Hudson Creek flows to Capps creek, do not exempt from water testing.
7/7/2005	Todd	Selvey	Lawrence	Hudson Creek		Their children play in the creek. It is chest deep on their 9 yr.old. Ride horses in the stream, concerned that their livestock and children are at risk.
7/7/2005	Kimberly	Selvey	Lawrence	Hudson Creek		Their children play in the creek. It is chest deep on their 9 yr.old. Ride horses in the stream, concerned that their livestock and children are at risk.
8/23/2005	Ron	Shinn	Barry	Hudson Creek	3237	Do not cease water testing of this creek; concerned it will adversely affect Capps Creek and Jolly Mill Park.
8/22/2005	Jene' & Barney	Short	Barry	Hudson Creek	3237	Please conserve this historical waterbody
8/15/2005	Dan	Snyder	Barry	Hudson Creek	3237	Do not exempt the creek. You once could drink the water.
8/15/2005	George and Linda	Sooter	Barry	Hudson Creek	3237	Don't exempt from testing. People use for fishing, picnics and relaxing. Goes through Jolly Mill Park.

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/19/2005	Ruth V.	Spencer	Barry	Hudson Creek		Friend of Jolly Mill Park; please protect this creek
8/15/2005	Denise	Staponski	Barry	Hudson Creek	3237	Visits the creek with family. Give water testing priority.
8/16/2015	Walt	Walker	Barry	Hudson Creek	3237	Don't exempt the stream from testing. It might impact the quality of the water.
8/15/2005	Howard	Wetzel	Barry	Hudson Creek	3237	Many people swim and play in the creek. Borders Jolly Mill Park.
8/22/2005	Greg	Wilhoit	Barry	Hudson Creek	3237	Hudson Creek flows to Capps creek, do not exempt from water testing. Contaminated water have adverse effect on the value of land.
7/12/2005	Brenda	Wilks	Barry	Hudson Creek	3237	Swims and fishes in the creek. Does not want it "exempted" from the CWA.
8/16/2005	Robert and Dorothy	Witt	Barry	Hudson Creek	3237	Jolly Mill uses the creek for fishing, swimming plus numerous others along the way. Continue testing.
8/13/2005	Carl J.	Yunker	Barry	Hudson Creek	3237	Please to not exempt from water testing. Runs through Jolly Mill Park. Runs through his property and is used for swimming.
7/13/2005	Pam	Hemmerling	Barry	Hurdon Creek	3237	Her family & neighbors baptized in these creeks; see comments on Shoal and Capps Creeks
8/23/2005	Ron	Coleman		Huzzah River	P	Open Space Council, Exec. Dir.; please retain WCBR use
8/14/2005	Dan	Holdinghaus	Crawford	Huzzah River	P	He swims regularly when he floats. It needs protection.
8/4/2005	Harry	Bogart	St. Charles	Indian Camp Creek	P	He wants Big Creek and Indian Camp Creek to have the WBCR designation.
6/29/2005	Russell and Laurie	Littlecreek	Warren	Indian Camp Creek	C	Wants the creek to be recognized as a recreational stream. Is concerned about a new development. Uses the stream for fishing and recreation.
8/12/2005	Bob	Kessler	Jackson	Indian Creek	C	He would potentially use the creek to swim and recreate with his grandchildren.

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION  
SEPTEMBER, 2005

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/17/2005	Ron & Donna	Buehler	?	Isle Du Bois Creek	1738	Own property on creek for 31 years between I-55 and Miss River; family and friends swim, wade and fish in creek all the time; WQ been getting worse each year;
8/18/2005	Pamela	Eddy		Jacks Fork	P	Rivers used equally for floating, swimming, wading, and tubing. "definetely full body contact rivers."
8/13/2005	Renee	Gray		Jacks Fork	P	Used for swimming by many.
8/23/2005	Debi	Larson	Texas	Jacks Fork	P	Spends time on these streams. Don't reduce WQS.
8/12/2005	Mary	Lawrence		Jacks Fork	P	Used for swimming by many.
8/24/2005	N/A	N/A	Texas	Jacks Fork	P	Protect our streams, we swim in the Jack's Fork.
8/12/2005	Bill	O'Donnell		Jacks Fork	P	Swims in the creek at Bluff Hole and Two Rivers
8/14/2005	Cynthia	VonHail		Jacks Fork	P	Swims in the river. Please protect.
8/24/2005	Phillip	Wampler	Shannon	Jacks Fork		Recreates, kayaks, swims
8/12/2005	Paul	Gibson		Jack's Fork	P	As former Interpretive Ranger at Ozark NSR, many people use the river.
8/14/2005	Dan	Holdinghaus	Crawford	Jack's Fork	P	He swims regularly when he floats. It needs protection.
7/15/2005	Mathew A.	Koeneker	Shannon	Jack's Fork	P	enjoys Current & Jack's Frk H2Osheds; opposes Pb mining;specifically lists bacteria levels and opposes new rules
7/15/2005	Ben	Koeneker	Shannon	Jack's Fork	P	; votes down proposed wasteH2O dumping
8/13/2005	Julie	O'Donnell	Shannon	Jack's Fork	P	River used extensively for swimming. It needs to be protected.
8/12/2005	Charles	Peterman		Jack's Fork	P	He was told that it would not be given WBCR status. It should be because man people swim there.

DEPARTMENT OF NATURAL RESOURCES WATER PROTECTION PROGRAM  
PREPARED FOR THE CLEAN WATER COMMISSION

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/13/2005	Alex	Primm	Phelps	Jack's Fork	P	He swims , paddles and fishes in the Jack's fork.It should have the highest level of protection.
8/12/2005	Jean	Blackwell	Jasper	Jenkins Creek	P	(Already has WBCR from mouth to S27,T27,R30W) Reports swimming at CR100 crossing S. of I-44; and at Birch Rd crossing S. of I-44.
8/12/2005	Jean	Blackwell	Jasper	Jones Creek	P	At CoRd 130 bridge: reports swimming - their family & others- also (1987-1994) fishing; also at Jasper/Newton Co line, about 2.5 mi E of Hwy 59; both spots no longer provide access.
7/13/2005	Alfred	Meyer	Lincoln	Jordan Creek	U	Being developed at a great rate
7/13/2005	Carole	Meyer	Lincoln	Jordan Creek	U	Fish and wade in creek; being developed fast
7/13/2005	Alfred	Meyer	Lincoln	Kaimann Branch	U	Lincoln Co. Utilities polluting creek
7/13/2005	Carole	Meyer	Lincoln	Kaimann Branch	U	Being developed at a great rate;Lincoln Co. Utilities polluting creek
8/18/2005	Ken	Midkiff	Boone	Kelley Branch	1016	Osage Grp. Sierra Club. Feels it's ironic that creek is listed on 303(d) list as impaired due to sediment he says is a result of ORV use encouraged by SP staff. States that ORVers use the creek for WBCR either accidentally or on purpose. States it is accessible to the public and people use it for WBCR. States that the entire length of the creek "must be assigned" WBCR use.
6/18/2005	Laura	Bock	Osage	Linn Creek	833	Creek was a wonderful clean stream at one time and fishing, swimming and even drinking took place.
7/12/2005	Ken	Franken	Osage	Linn Creek	833	Swam in the creek during the 50's and 60's. Do not lower the water quality requirements for the creek.
6/15/2005	John	Williams	Phelps	Little Beaver Creek	1530	People swim in the creek. Do not exempt from the rules.

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/14/2005	Tom and Shirley	Johnson	Jackson	Little Blue River	0422 or 0424	Displeased with location of the public hearing (Moberly). Purposely dumping fecal waste into these waters is not only a crime, but absolutely disgusting. Stream should be protected for swimming & fishing.
e-mail	Terry	Finger	Boone	Little Bonne Bemme Creek	1003	Fishes in creek; crossed by hiking trails (is in Rock Bridge SP); children play in creek
8/19/2005	Terry	Frueh	Boone	Little Bonne Bemme Creek	1003	He send in 2 comments from others to support WBCR.
8/19/2005	Rick	Goodman	Boone	Little Bonne Bemme Creek	1003	People swam in the creek in the 90's
8/15/2005	Bryan	Hopkins	Boone	Little Bonne Femme Creek	1003	Kayaks in stream, some parts are up to his waist. Does not flip his kayak in this stream.
8/24/2005	Tom	Ratermann	Boone	Little Bonne Femme Creek	1003	This stream should be segmented and WBCR removed between downstream boundary of Rock Bridge Park and assessment site 1003-005.
8/24/2005	Michael	Bessert	Phelps	Little Dry Fork	1863	He is a biologist at the U. of Ne studying Plains Topminnow. They collected in Mo at 10 sites in the Osage, Gasconade and Spring R. drainages. He is concerned that these fishes are an indicator of High quality streams but they may be impacted by bacteria and viruses. He also saw recreational swimming and wading in at least 1/2 of the sites. Nearby town, Rolla,
8/26/2005	Chenhong	Li	Phelps	Little Dry Fork	1863	If streams are exempted from protection, it will not only affect people who will work in the streams but will change the fate of the fish in those waters. Li may sample stream in the future (topminnow research project
6/15/2005	Leon	Cambre	Phelps	Little Dry Fork Creek	1863	His family swims in the creek. This is a losing stream that charges Meramec Spring. Section 23 & 24, T37N, R7W

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/11/2005	Josephine	Alves	Washington	Little Indian Creek	2017	Uses the stream for wading and playing. Please put back on the list.
8/25/2005	Robert R.	Bacon	Washington	Little Indian Creek	2017	Env Resources Coalition surveyed 100% of classified reach and found the water depth was not sufficient to support WBCR. Bacon believes that the interviewees that stated that there was swimming were biased due to other local issues.
7/11/2005	Gerald	McClenning		Little Indian Creek	2017	Fish, swim and wade in the creek.
7/18/2005	George and Regina	Pinson	Washington	Little Indian Creek		Swims and wades in the creek.
7/11/2005	James and Teresa	Rollings	Washington	Little Indian Creek	2017	Children wade and play in the creek. The sewage coming into it from town should be disinfected.
7/8/2005	Loy and Alta	Shrum	Bollinger	Little Muddy Creek	P	Swim and fish in the stream
6/16/2005	Charles E.	Crest		Little Prairie Lake	U	Fishes and thinks no stream or lake should be a dumping place for cities or companies.
7/14/2005	Mike	Irwin	Holt	Little Tarkio Creek	U	spoke w/ man reports fishing there for 60 yrs; gives coordinates
Fax	Pamela S.	Vohs	Holt	Little Tarkio Creek	U	Wish to exempt the stream
6/13/2005	Chad	David	Grundy	Lower Trenton Lake	L3	Designated as WBCR-B is probably correct since it is shallow. Should not be designated as a DW source.
6/13/2005	Steve	Muff	Grundy	Lower Trenton Lake	L3	Designated as WBCR-B is probably correct since it is shallow. Should not be designated as a DW source.
6/13/2005	Steve	Muff	Grundy	Lower Trenton Lake	L3	Should be designated as WBCR-A since they have a swimming beach. Should not be designated as DW since it never was used for that and would be prohibitive to use as DW now.
7/8/2005	John	O'Bannon	Bates	Marais Des Cygnes	1297	used for fishing and other recreation is increasing. Do not permit more pollution entering these streams. Marais Des Cygnes is a DW source for the City of Butler, and PWSD's.

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/8/2005	John	O'Bannon	Bates	Mound Branch	1300	used for fishing and swimming. Do not permit more pollution entering these streams. Agricultural pollution to streams needs to be compensated for solutions. We should eliminate non agricultural pollution immediately.
7/9/2005	Tammy	Gregory	Bates	Mulberry Creek	1305	"Please don't dump sewage or bacterial Laden water into our natural resources." Gregory sent pictures of her family swimming in the stream north of Amoret.
7/8/2005	John	O'Bannon	Bates	Mulberry Creek	1305	used for fishing and swimming. Do not permit more pollution entering these streams. This stream discharges into the Marais Des Cygnes where the City of Butler, and PWSD's have a pump station for the DW.
7/14/2005	Shirley	White	Bates	Mulberry Creek	1305	Kids and adults wade and fish in creek
6/24/2005	Janet	Weaver		Mussel Fork	670?	Disgusted that MDNR is considering exemptions. We should be trying to keep the streams clean, not degrade them.
8/18/2005	Dan & Sylvia	Hein	Macon	Mussel Fork Creek	670	Family, children and grandchildren swim and play in creek between Aurora and Apollo Bridges in western Macon Co
7/12/2005	Sally	Hubbard, MD	Chariton	Mussel Fork Creek	670	Children play and fish in creek
7/11/2005	John	Galeski	Perry	Nations Creek	1780	Perryville plant was undersized and discharges raw sewage into creek. This has seriously degraded the creek and led to fish kills. He is afraid to use the creek water to irrigate his grapes and fears this will affect his well. Does not want the city "exempt" from the WQ rules.
7/11/2005	Mary	Galeski	Perry	Nations Creek	1780	The city of Perryville's wastewater has killed the crawfish and fish in the stream. It is unsafe when the water overflows its banks and gets into the crops. It could ruin their wells.

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
6/23/2005	Todd	Null	Barton	North Fork Spring River	3188	Hunt, fish, swim and wade in river. Is unhappy that we aren't properly protecting this and all rivers and streams.
7/5/2005	Travis and Lisa	Roby	Barton	North Fork Spring River	3188	Camp, swim, fish, play and hunt in campgrounds on river near Lamar.
8/18/2005	Nancy	Nicholson	Andrew	Pedlar	283	Concerned that sewage is being dumped into streams and streams only have to be clean if humans are using them.
8/24/2005	Millicent L.	Kalil	Texas	Pine Creek meant Pine Branch?	3608?	Lives on Pine Creek. Worried that "making water quality standards easier for streams in Texas Co. which are classified as nonswimmable or nonfishable will...lead to contamination of groundwater and wells. I am not necessarily in favor of heavy chlorination, however. Believes there are other ways to purify that are more environmentally responsible.
6/18/2005	Jodie	Young	Polk	Piper Creek	1444	Concerned about the water quality of the creek running through their farm. Their 4 children and others play in the creek. Live 1 mile N. of B HWY and 1/2 Mile W. of HWY 83. Also concerned about water supply.
8/23/2005	David W.	Smith	Jefferson	Plattin Creek	1728	Questions about details in UAA. [Letter needs answered]
8/22/2005	Harold (Pete)	Beard	Johnson	Post Oak Creek	918	Beard has used Post Oak for swimming. Keep federal regulations and protect the streams that flow into Blackwater. "If septic systems far from streams are regulated, why not public streams? Do not let us down."
8/22/2005	Harold (Pete)	Beard	Johnson	Post Oak Creek	(0932 ?)	Beard has used Post Oak for swimming. Keep federal regulations and protect the streams that flow into Blackwater. "If septic systems far from streams are regulated, why not public streams? Do not let us down."

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/24/2005	Dan	Shelburne	Callaway	Rivaux Creek	731	UAA recommends retaining use below Site 513, which is the classified part; the US portion is unclassified anyway (3 sites on Unclassified)
8/19/2005	Dianne	Henderson	Ste. Genevieve	River Aux Vases	1750? 1756?	Do not let any creeks be polluted! Played in creek that goes through their property (unnamed) as well as R. Aux Vases
8/19/2005	Dianne	Henderson	Ste. Genevieve	River Aux Vases	1750? 1756?	She read that local streams were to be excluded from the CWA and she is mad that we would allow pollution of your streams. They tgo camping, fishing and hunting. They are are upset that the fish could be tainted.
7/15/2005	Darlene	Haun	Jefferson	Rock Creek	1714 or 1715	They monoitro this creek; have seen children playing in creek numerous times;runs through Mastadon SP and a YMCA day camp
8/12/2005	Dorothy	Lindhurst	Jefferson	Rock Creek	1714 or 1715	She teaches science at Seckman middle school. Kids do swim in the creek.
8/12/2005	Bill	O'Donnell	Shannon	Rocky Creek		Swims in the creek
7/15/2005	Darlene	Haun	Jefferson	Sandy Creek	1720	They also monitor this stream and see people swimming near their site; goes through community college and a Girl Scout Camp.
8/15/2005	Larry	Carter	Barry	Shoal Creek	3231	Don't exempt Hudson Creek, it would have an effect on this creek.
7/11/2005	John	Deis	Caldwell	Shoal Creek	528	Kayaks in the creek. Is concerned Kingston discharges untreated sewage into the creek.
7/5/2005	Thomas and Betty	Haase	Caldwell	Shoal Creek	528	They, children and grandbabies wade, fish and play in creek
8/15/2005	Juanita and Otis	Hayes	Barry	Shoal Creek	3231	Protect swimming, wading and fishing in the creek.
7/11/2005	Theresa	Heim	Caldwell	Shoal Creek	528	People swim, play and wade in the creek at Rt. O. Kingston should have to disinfect.

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/13/2005	Pam	Hemmerling	Barry	Shoal Creek	3231	Same comments as on Shoal Creek; see Hurdon also.
7/7/2005	Lee	James	Barry	Shoal Creek	3231	Fish and swim in the creek.
8/7/2005	Mary	Johnston	Barry	Shoal Creek	3231	UAAs are a devious way to allow agri-business to dump. This creek is in the headwaters of Shoal Creek and the source of her drinking water.
7/11/2005	Mackason	Lee	Caldwell	Shoal Creek	528	Family uses creek to kayak, fish and ice skate; # of fish has dropped tremendously in past 10 years
6/23/2005	Tom E.	Lewis	Caldwell	Shoal Creek	528	Fish and recreate in the stream. Should not dump sewage into creek as is proposed.
7/5/2005	Linda Pardon	McElwee	Caldwell	Shoal Creek	528	Grandson fishes in stream
7/11/2005	Beverly & Missy	McQueen	Caldwell	Shoal Creek	528	Family uses creek to kayak, fish and ice skate; # of fish has dropped tremendously in past 10 years
8/17/2005	Jim	Meone	Barry	Shoal Creek	3231	Please help us keep the creek clean.
8/15/2005	Lee and Piper	Price	Barry	Shoal Creek	3231	Safeguard this stream.
7/7/2005	Gary Neil	Shemwell II	Barry	Shoal Creek	3231	Hunts and fishes the creek
8/16/2015	Walt	Walker	Barry	Shoal Creek	3231	Don't exempt the stream from testing. It might impact the quality of the water.
6/18/2005	Helen	Webben	Caldwell	Shoal Creek	528	Shoal Creek is the poor man's resort area to wade, fish and swim in. Please protect.
7/14/2005	Livingston Co. Commission	Danner	Livingston	Shoal Creek	3231	Eva Danner, Presiding Commissioner & Ken Lauhoff, Comm. E. Dist. & Kenneth Warren, Comm. W. Dist.: Oppose "any exemption to current DNR regs." Shoal Creek used for swimming, fishing, wading, some boating. Reference petition w/ 87 signatures submitted to CWC on 7/6/05.
8/4/2005	Bud	Pratt	Boone	Silver Fork		They use the creek to swim and canoe and are glad it will receive WBCR status.

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
6/9/2005	Lauran	DeRigne	Dade	Sinking Creek	1429	Many children and families swim in the creek. Make companies and plants spend the extra time and money to keep our waterways clean.
8/19/2005	Daniel & Betty	Coleman	Ste. Genevieve	South Fork (known locally as Armbruster Creek)		Family fished, swam and played in creek since 1945; since so many people on vacation this time of year, thinks article should have run 2 or 3 weeks
8/20/2005	Russell	Batzel, P.E.	St. Charles	Spencer Creek	0224	Mr. Batzel is the Manager of Public Works Services for the City of St. Peters, MO. He states that they agree with the decision to remove the use of this segment from the Whole Body Contact Recreation designation, but "disagree that the stream segment should be assigned Secondary Contact Recreation status." Mr. Batzel states that locations where children play in the stream and where a Stream Team monitors the stream are not in the same segment of the stream as the UAA segment. The letter states that the statement in the UAA regarding kids playing in the creek "may have referred to other segments of Spencer Creek upstream near the park trails."
8/20/2005	Russell	Batzel, PE	St. Charles	Spencer Creek	224	Manager Public Works Services; Wants SCR use removed. Disputes interviewee's comment that children play in stream and it is used for monitoring (says, not done in the "UAA segment")
8/24/2005	Thomas B.	Burkemper	Lincoln	Spring Creek	3444	Owns land that the creek runs through; in 1972, swam in creek regularly; after Deer Run Meadow's WWTP built, water either runs green slime or gray slime; cattle won't drink it; won't allow grandchildren even wade in it.

LIST 3

**COMMENTS THAT DO NOT DISPUTE UAA FINDINGS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
7/5/2005	Richard	Velugi	Lincoln	Spring Creek	3444	DNR must put in place full WQ protections
	Jean	Blackwell	Jasper	Spring River		Swam in recent years in Forest Mills area where CR 90 crosses, at Kellogg Lake park in Carthage, and Morrow Mill area, and reports many others swimming at these places over the years.
8/26/2005	Chenhong	Li	Lawrence	Spring River	3160	If streams are exempted from protection, it will not only affect people who will work in the streams but will change the fate of the fish in those waters. Li may sample stream in the future (topminnow research project)
6/3/2005	Scott	Miniea	Callaway	Stinson Creek		Has observed children swimming in the creek.
7/5/2005	Frank and Jenine	Nowicke	Reynolds & Iron	Strouthers Creek		Family swims and fishes in creek
6/13/2005	Colleen, Robert, MW, RA	Annett	Miller	Tavern Creek		Do not exempt from the new WQ rules. Worried water will get into water table.
6/13/2005	Flossie, Tim, Beth	Clark	Miller	Tavern Creek		Do not exempt from the new WQ rules. Worried water will get into water table.
8/22/2005	Jeffery	McKeehan	Henry	Tebo Creek		[no UAA (not on list)] Petition signed by 42 people; keep creek safe for swimming, fishing, boating and other recreational uses.
7/13/2005	Melody	Torrey	Grundy	Thompson River	549	swimming at Crowder State Park, fishing
6/13/2005	Neil and Linda	Brunner	Cedar	Trib to Bear River		Think sewage plants will be releasing more bacteria-laden effluent into Mo streams which will increase illness. Their stream already gets algae blooms from a cattle operation.
7/13/2005	Arbie	Berg	Warren	Tuque Creek	1610	Grandchildren and friends camp, swim, fish

**GENERAL COMMENTS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/15/2005	Rex	Ball	N/A	General	N/A	Don't allow the streams to be polluted.
8/15/2005	David	Mutrux	N/A	General	N/A	Do not remove any streams from the list of protected streams. Do not sell out to special interests.
8/15/2005	Gerald and Letha	Nagle	N/A	General	N/A	Do not drop any of our streams from WBCR.
8/12/2005	Gloria	Bauermeister	St. Charles	General	N/A	She swims in all Mo rivers and wants all to be included as WBCR. No specific stream mentioned.
e-mail	David	Cavender, PE, DEE	NA	General	N/A	Supports UAA effort; both chlorine and UV are potentially harmful in themselves; has studies several of the UAAs and feels we are not applying the criteria in the same manner throughout the state (noted very few Ozark streams given waivers)
8/24/2005	Ron	Coleman	state wide	General	N/A	Missouri Parks Assn President; opposed to any change to classification or designation of waters associated with state parks
7/9/2005	Zella	Collie	Newton	General	N/A	Concerned that Use Attainability Analysis will not protect streams. People don't swim because the streams are polluted. DNR is Do Nothing Regime.
8/22/2005	Bill	Echols	Howell	General	N/A	He is concerned about the contamination of groundwater in karst areas. These streams are not swimmable but they should be protected because of the potential to contaminate wells and springs.
8/24/2005	Kevin	Este	N/A	General	N/A	He and his boys play, wade and catch minnows, etc. in the streams. There should be no acceptable level of waste in the streams.
8/23/2005	James	Fairchild	N/A	General	N/A	Opposes alteration of the legal limit of E.Coli in water intended for WBC to levels above the current limit.
8/18/2005	Ester and Paul H.	Freese	Lincoln	General in Lincoln Co	N/A	Please keep the streams clean, once polluted they will be hard to clean up.

**GENERAL COMMENTS**

Postmark Date	First Name	Last Name	County	WB Name	WBID #	General Comments
8/13/2005	Dave	Gooden		General	N/A	Keep the rivers clean.
8/20/2005	Norman	Leppo	Whole state	General	N/A	Chairman of Missouri Smallmouth Alliance, representing 300 members; Keep streams fishable
6/21/2005	Kenneth	Richardson	Lincoln	General	N/A	"believe that all streams in Lincoln Co. be protected from all contamination of any and all waste."
8/24/2005	Gail & Thomas	Rowley		General	N/A	Would like to see the new law include safeguards that counterbalnce the use of chlorine disinfecting
8/17/2005	Greg	Rudoff	St. Francois	General	N/A	He was concerned that the proposed regulations will relax water protection for some streams.
8/11/2005	D	Sparkie		General	N/A	Human feces and toxic chemicals are being discharged to MO waters at an alarming rate. China is so polluted that they will run out of land to grow food and will be attacking the US for our land.
8/12/2005	Richard	Wilson	Washington	General	N/A	Don't approve any exemptions.
7/20/2005	Sandra	Wolfgang		General	N/A	grandchildren should be able to walk/play without concern for contaminants
7/13/2005	Pinson Excavating		Washington	General	N/A	Petition sent in by fax from the Pinson Excavating Co. for Washington Co. residents. Article from the Coalition for the Environment was attached to the petition signed by more than 100 people. The petition states that Washington Co. residents are outraged over the plan to dump sewer waste iin our rivers and steams. They don't want the problem they had in the 1990's with Mill cr.
8/21/2005	Bill	Echols	Texas and neighboring counties	General - Ozark Central Plateau streams	N/A	This area is Karst and water sources for municipalities. The water gets little purification traveling through karst. Don't relax the standards.
